# Presentation Template

A Presentation project template to save you time and energy.

Creating publicly usable presentations takes a lot of time - especially if they are to be made available as a GitHub page. With this presentation template, you can quickly start creating your presentation and save time and energy.

# Image Syntax

Click the `Use this template` button at the top of this project's GitHub page, it looks like this:

# Lists

## Bullet List

- One

- Two

- Three

## Fragmented List

- One

- Two

- Three

# Usage

**Easy text replacements**

1. Replace all occurances of `USERNAME`

**File configuration**

1. Update the author in the `LICENSE` file
2. Create your presentation inside the `README.md` file
3. Add more files to `docs/` folder
4. Add your images to the `img/` folder
